

North Sea Holidays on Hallig Hooge

In the midst of the Wadden Sea you will gain your own unique impression!

Holidays at Hallig Hooge stand for pure recreation from everyday stress in the heart of a wonderful cultural and natural landscape for the young and old alike. In the vastness of the North Sea, low and high tides govern the rhythm of life and thus the schedule of your holiday. You can take a bath in the sea and enjoy a hike on the seabed on the same day. At low tide, you can watch seals sunbathing on sandbars. At high tide, we recommend taking a boat trip during which fishing of our local seafood and fish is captured. Or enjoy a leisurely cruise through the Hallig islands.

Enjoy the variety of our vast landscape dominated by the sea, the maritime flair and the National Wadden Sea Park.

Healthy sea air and a fresh breeze are guaranteed.
